Biography

Dr. Paul Chew is currently Chief Medical Officer Advisor to CorMedix, which develops novel taurolidine-based therapeutics, and Chief Medical Officer Advisor to Phesi, which expedites clinical trials through innovative data-driven platforms. Dr. Chew's previous experience includes the emerging area of digital health therapeutics, in his work as Chief Medical Officer for Omada Health.

Before joining Omada Health, Dr. Chew was Senior Vice President and Global Chief Medical Officer at Sanofi, a Paris-based pharmaceutical company. In addition, he has served as a member of the Pharmaceutical Research and Manufacturers of America Science & Regulatory Affairs Executive Committee and of the National Academy of Medicine's Value & Science-Driven Healthcare Roundtable. He has also served on the External Advisory Board to the University of North Carolina Gillings School of Public Health and the International Advisory Board for the Centre Virchow-Villermé for Public Health in Paris and Berlin. Prior to Sanofi, Dr. Chew was Vice President, Global Head of Metabolism and Diabetes at Aventis Pharmaceuticals in 2001–2004. Before joining Aventis, Dr. Chew was at the Bristol-Myers Squibb Company, where he held numerous positions of research and development responsibility.

Before his work in industry, Dr. Chew was on the faculty of the Johns Hopkins School of Medicine as Assistant Professor of Medicine, Attending Physician in Radiology, Director of the Pacemaker Clinic, and staff member in Interventional Cardiology. Dr. Chew obtained his medical education at the Johns Hopkins School of Medicine, serving his internal medicine training and cardiology fellowship at the Johns Hopkins Hospital. Dr. Chew is Board certified in Internal Medicine and Cardiovascular Diseases. He is a member of the Nassau Club and the Friends of the Institute for Advanced Study in Princeton, NJ. When time allows, Dr. Chew and his wife enjoy competitive dragon boat racing.
