

Medical Sciences Trustee Candidate

Jesse L. Goodman, M.D., M.P.H.

Professional Experience

- Professor of Medicine, Georgetown University
- Director, Center on Medical Product Access, Safety and Stewardship
- Infectious Diseases Consultant, DC Veterans' Affairs and Walter Reed Medical Center
- Chief Scientist, Food and Drug Administration (FDA)
- Director, Center for Biologics Evaluation and Research, FDA

USP Experience

- Convention President
- Advisor to the Quality Institute

Additional Information

- Member of the National Academy of Medicine

Biography

Dr. Jesse Goodman is Professor of Medicine at Georgetown University and Director of the new Center on Medical Product Access, Safety and Stewardship (COMPASS), which is focused on informing science-based policy to address public health needs. He is Board certified in Internal Medicine, Infectious Diseases, and Oncology and serves as an infectious disease consultant clinician at Georgetown University, DC Veterans' Affairs, and Walter Reed Medical Centers.

Until 2014, Dr. Goodman was FDA's Chief Scientist, leading crosscutting scientific efforts, including public health preparedness and medical countermeasures. Before that, he directed FDA's Center for Biologics Evaluation and Research, supporting innovative regulatory approaches to vaccines and other biologics and spearheading unique public-private efforts to address public health challenges such as West Nile virus, human tissue safety, and influenza vaccine development and availability. As Senior Advisor to the Commissioner, he initiated the first U.S. Task Force on Antimicrobial Resistance. He helped in developing the Global Vaccine Action Plan and previously served on the World Health Organization's Ebola Vaccine Working Group. He currently is on the Centers for Disease Control and Prevention's Board of Scientific Counselors (Infectious Diseases). Previously, he was Professor and Chief of Infectious Diseases at the University of Minnesota.

A Harvard graduate, Dr. Goodman received his M.D. from Albert Einstein College of Medicine and completed post-doctoral training at the University of Pennsylvania and UCLA, where he was Chief Resident. He has been elected to the Institute of Medicine of the National Academy of Sciences.
