---

## Biography

Dr. Joseph Scheeren is a successful regulatory affairs and development professional with more than 35 years of global industry experience. He is currently the President and CEO of the Critical Path Institute, an independent, nonprofit organization with the mission of catalyzing the development of new approaches to advance medical innovation and development/regulatory science.

Prior to assuming his position at the Critical Path Institute, Dr. Scheeren spent 15 years with Bayer in regulatory affairs, development, and research and development (R&D). Dr. Scheeren has worked and lived in Asia, Europe, and the United States. He is also currently an adjunct professor for regulatory sciences at Peking University.

Dr. Scheeren is active in innovation, education, and boards, including the following:

- Member of the Executive Committee of the Drug Information Association and immediate past-Chair of the Board of Directors
- Member of the Scientific Advisory Council and Administrative Management Committee of the Center for Innovation of Regulatory Science
- Member of the Advisory Board of the Center of Regulatory Excellence in Singapore
- Member of the Advisory Board of the Regulatory Affairs Track at Yale University
- Member of the *Academie Nationale de Pharmacie* in France
- Lecturer at Yale University
- Former member of the R&D Committee of the R&D-based Pharmaceutical Association Committee
- Former member of the Regulatory Affairs Committee of Pharmaceutical Research and Manufacturers of America
